Carbery Concept

GLP-1 Companion Drink

This concept has been developed for GLP-1 users as a whey protein-based companion product to provide nutritional support during a weight management journey. It contains Optipep® Hydrolysed Whey Protein Isolate, and Isolac® Whey Protein Isolate to maintain lean muscle and has added minerals and vitamins to support bone health.

APPLICATION HIGHLIGHTS

+ Dual protein support with Optipep and Isolac, providing high-quality protein that is both easy to consume and quickly absorbed.
+ Designed to support muscle maintenance and recovery, with essential amino acids and BCAAs that can help meet protein needs during a GLP-1 journey.
+ Easy to digest and enjoyable to drink, combining Optipep's rapid absorption with Isolac's clean taste, smooth texture and excellent mixability.
